EDUCATION

Zhejiang University, School of Mathematical Sciences **Sep 2024 - Jun 2028 (Expected)**

- **B.Sc. in Statistics; GPA: 4.72/5.0; Major GPA: 4.85/5.0;**
- **ranked 1st in the major.**

Zhejiang Provincial Wenzhou High School **Sep 2021 - Jun 2024**

SELECTED HONORS & AWARDS

- National Scholarship, China, 2026
- First-Class Scholarship, Zhejiang University, 2025
- "Danqing Star", Top Ten Students of Danqing Academy, Zhejiang University, 2025
- National-Level Innovation and Entrepreneurship Project, SRTP, 2026
- Third Prize, National Undergraduate Mathematical Modeling Competition, 2025
- Third Prize, Zhejiang Province College Student Physics Innovation Competition, 2025
- Second Prize, CATTI National Foreign Language Reading Contest, 2024
- Champion, Women's 400 m, Danqing Academy Sports Meet, 2024

RESEARCH EXPERIENCE

Student Research Training Program, SRTP **03/2026-present**

Zhejiang University | Advisor: Prof. Zemin Liu

Dynamic-Evolution Mixture-of-Experts based Vision-Language-Action (MoE-VLA) Model for Embodied Intelligence

- Contributing to a dynamic-evolution MoE-VLA architecture that combines vision-language understanding, task routing, and skill-expert execution to improve the efficiency and generalization of embodied agents.
- Exploring a proactive lifelong-learning framework that links task execution, data accumulation, structural optimization, and model iteration.
- Designing a hierarchical skill library with atomic and composite skills, together with mechanisms for autonomous expert splitting and merging based on interaction trajectories.

Undergraduate Academic Reading Project **08/2025-08/2026**

Zhejiang University | Advisor: Prof. Lijun Wang

An Introduction to Statistical Learning with Applications in R

- Prepared weekly reading reports while completing the full English edition of *An Introduction to Statistical Learning*.
- Reviewed core topics spanning regression, classification, resampling, tree-based methods, support vector machines, deep learning, survival analysis, clustering, and multiple testing.
- Strengthened the ability to read technical literature in English and explain statistical learning methods through structured written reports.

LEADERSHIP AND SERVICE

Youth League Branch Secretary, Statistics 2401

- Coordinated class-level youth league affairs and supported communication across student activities.

Student Ambassador, School of Mathematical Sciences

- Assisted with school outreach and hosted visiting Fields Medalists during a mathematics exhibition visit.

SKILLS AND INTERESTS

- **Research:** academic literature reading skills, presentation skills, academic writing skills, mathematical modeling skills.
- **Languages:** strong English academic reading and reporting skills.
- **Research Interests**: high-dimensional statistics, machine learning, statistical inference, and large language models (LLMs).

SELECTED COURSES

Mathematical Analysis (98/100) Advanced Algebra (95/100) Analytic Geometry (95/100)
Mathematical Statistics (93/100) Stochastic Processes (96/100) Mathematical Software (100/100)
Data Modeling and Analysis (97/100)
